Subject: CAC notification; San Jacinto Waste Pits Superfund Site Update

This notice is in regard to a current site event:

"The PRPs are scheduled to conduct the assessment and repair beginning on March 9, 2016, with completion on March 11, 2016, weather and tide permitting. The Potentially Responsible Parties conducted a visual inspection of the cap on February 24 and found a couple of areas where geotextile fabric did not have armored rock cover. The PRPs notified EPA on March 4 and we directed them to place additional rock over these areas and approved a plan to conduct this work under EPA oversight."

Local Congressional have been updated.

Thanks,
